INTERNATIONAL INTENSE PROGRAM

International Master's Program in
Information Technology Management

(English-taught Master Degree Program)

Introduction of the Program

this special program features a collaborative model where the University and partner enterprises jointly select and cultivate top talent. The curriculum offers in-depth training in key sectors, including Information System Development, Digital Transformation, Cloud Computing, Big Data Analytics, AI Applications, and Information Security Management.

Who We Are Looking For?

This program is a full participation of enterprises in selecting outstanding talents, course instruction, and internships, all aimed at jointly fostering and retaining talents. The international students who are aiming to study and develop their career in Taiwan is the one we are looking for.
