## 411 Study Abroad Fair

From March 17- March 19, The 411 Study Abroad Fair of 2020 was held by office of international and cross-strait affairs.

Considering the influence of COVID-19 pandemic, the fair was held by online interview and poster show instead of face-to-face interaction with students.

There is an online interview conducted with different topics, such as short-term study tour, exchange program, double-degree program, and international internship on a daily basis.

Students shared their experiences through these activities and delivered a comprehensive information about going abroad. In a short span of three days ,the videos reached over 5,000 people and over 1,000 engagements, which is considered a great accomplishment.
